Notice of Impact of Typhoon No. 11 on the Company's Subsidiary (3rd Report)

We would like to inform you the estimated amount of damage caused by Typhoon No. 11 at our subsidiary RORZE ROBOTECH CO.,LTD. (hereafter RRC) in Vietnam as updated information disclosed in the "Notice Regarding the Impact of Typhoon No. 11 on Our Subsidiary" dated September 9, 2024, and the "Second Notice Regarding the Impact of Typhoon No. 11 on Our Subsidiary" dated September 12, 2024.

1. Estimated Amount of Damage

At present, the estimated amount of damage is approximately 443 million JPY in total for buildings, equipment, inventories and other related expenses at RRC's plants.

2. Impact on Business Performance

We expect that insurance will cover most of the above damage, and the impact on our group's business performance is minor.

With the production system recovering smoothly, the production delay is scheduled to be about two weeks, and to be resolved by the end of November. We expect the impact of this production delay on our group's business performance will be limited.
