Quarterly Sales Trends

※ Part of the sales previously classified as “Service/Parts etc.” becomes included in “Analysis device” in FY'25 , and the figures for FY'24 have been revised accordingly.

Net sales by regions

- Semi Sales increased mainly for front-end process and advanced package to customers in Taiwan
- Semi Sales to end users increased, while those to equipment manufacturers decreased
- Impact of mutual tariffs by US was not significant on the current business performance and trades

“Net sales by region” is calculated based on the location of each customer’s head quarter

Operating profit

- SG&A expense increase in personnel costs and goodwill amortization as well as exchange rate impact offset upswing by sales increase mainly in Semi, resulting in a year-on-year decrease in operating profit

※ The impact of Nanoverse on consolidated operating profit (Million JPY) :

Labor Costs 469, R&D Expense 8, Goodwill amortization amount 719, Other SG&A Expense 304

Trends in orders, sales, and backlog

Semi

- Semi sales significantly increased QoQ to Taiwan, declining to major customers in USA and remaining high in China
- Order amount declined after more than trend increase in the previous quarter when solid demand for advanced package related equipment continued strong

Trends in orders, sales, and backlog

Analysis device

- Sales amount decreased after sales recorded upon concentrated acceptance in the previous quarter
- Order amount for wafer manufacturers steadily grew

※ Part of the sales previously classified as “Service/Parts etc.” becomes included in “Analysis device” in FY'25 , and the figures for FY'24 have been revised accordingly.

Trends in orders, sales, and backlog

FPD

- Sales declined following installation of large substrate transfer equipment in the previous quarter
- Order amount stayed at a level comparable to the sales volume in the current quarter

Consolidated balance sheet

FY2025 Business Forecast

Future Outlook for FY2025

- Semi for front-end process and advanced package related equipment to end-users will drive sales.
- Demand of equipment manufactures in USA and China will remain at a high level.
- Full-year profit level will remain flat. Production efficiency improvement will offset higher costs in the first half from a newly consolidated subsidiary in FY'24 Q3.
